- All Harnesses are available in 4 different colours at the same price
- The whole range of 3"/3" harnesses has been recognized as "Hans friendly" by Hubbard/Downing Inc. USA.
- Sabelt developed a special buckle for the rally harness range; is it very important the introduction of mini-tangues (lighter and more suitable for the use with Hans collars) and the new crutch strap shaped T-bar (to reduce weight but also to grant the best possible position of the crutch straps).
- Together with J.P. Montoya, Sabelt developed a special buckle for single seater harnesses: mini-lever buckle with lever protection cover ; thanks to its small profile lever shape it avoids the accidental contact with driver legs or arms.

NOTE:

-The new range of clubman harnesses for road use is ECE 16 approved; harnesses are available in 3 points (homologation number 16R-04 0688) and 4 points version (homologation number 16R-04 0689).

NOTE:

'-The webbing is 2" width (available in red, black, blue and grey) and it is the same used in competition harnesses production; in the same way as the shoulder and lap straps adjusters are the same used for Top Formula harnesses.

'-The adjusters located on both sides, guarantee a perfect quick adjustment and fitting, maintaining the buckle on the centre of the body, thus avoiding possible

PADS

450040	Vep fabric shoulder pads. Widht: 2". Velcro fastening.		red		2"	A	€ 6,00
